Miki Koga
Final Project Description

For my final project, I will be creating a 5-step simple skincare routine guide.

Each of the 5 steps will have its own section with an image, header and description. I may incorporate hover effects on the images to make the content more dynamic. The navigation will be fixed at the top of the page below the header and include numbers 1-5, representing each skincare step. The numbers will have a basic hover effect, and by clicking on a number, the user will be taken to the corresponding step on the page. Beneath the 5-step sections, there will be an "Extra Credit Steps" section with a continuous carousel. The carousel will include up to 8 items (images with text labels) and display 4 items per rotation. The user will be able to scroll through the items by clicking on the left and right arrows. Lastly, a footer at the bottom of the page will include my information and credits.
